Education

University of Hong Kong Sep 2026 to Jun 2028

Master of Philosophy (MPhil.) at the School of Computing and Data Science

- Supervisor: Prof. Difan Zou
- Awards: Hong Kong Postgraduate Scholarship

Hong Kong University of Science and Technology Sep 2022 to Jun 2026

Bachelor of Science in Mathematics

- CGA: 3.745/4.3 ([Transcript](#) , grade at graduation)
- Awards: Epsilon Fund Award Nominee (HKUST, 2025); Chern Class Achievement Scholarship with outstanding performance; University's Scholarship Scheme for Continuing Undergraduate Students (every year after year 1); HKSAR Government Scholarship Fund - Talent Development Scholarship $\times 2$; Dean's List (every year after year 1)
- Coursework: Honors Real Analysis, Honors Probability, Advanced Algebra (PG-Level), Differential Geometry, Partial Differential Equations, Lie Groups, Number Theory, Algebraic Topology

Hong Kong University of Science and Technology Sep 2022 to Jun 2026

Bachelor of Science in Computer Science

- Coursework: Machine Learning (PG-Level), Honors Algorithm, Computer Organization, Reinforcement Learning, Graph Machine Learning, Reinforcement Learning, Computer Vision

University of Waterloo (Exchange) Jan 2025 to Apr 2025

HKUST nominated

Liaoning Shiyan High School Sep 2019 to Jun 2022

Secondary Education

- Awards: First Prize in Provincial Level Chinese Physics Olympiad (37th and 38th)

Research Experience

Diffusion Model and Log-Concave Sampling ([Report](#) ) Summer to Winter 2025

- Advisor: Dr. Xunpeng Huang (now at UCSD), Prof. Difan Zou at HKU and Prof. Yang Xiang at HKUST
- Developing new algorithms with diffusion models and providing provable bound estimation guarantees
- Working on combining randomized midpoint method with proximal sampler and ULD

Geometric Flow ([Report](#) ) Summer 2024

- Advisor: Prof. Frederick Fong at HKUST
- Learnt Riemannian geometry and studied the key inequality tricks in Hamilton's paper on gradient estimate of Ricci flow within 2 months in summer term
- Received grant as course award

Cluster Algebra ([Report](#) ) Fall 2023

- Advisor: Prof. Ivan Ip at HKUST
- Provided a method to extract the information of the triangulation and turn it into a combinatorial problem, and an algorithm to generate all possible cases
- Balanced study and research in one semester, completed with positive feedback from the supervisor

Social Activities

Robomaster Internal Competition ([Github page](#) ) Fall 2024

- Software Group Leader: Coordinating schedule, setting deadlines and testing results

- 1st Runner up
- Led 5 teammates to program for a robot prototype in a tight schedule

Skills

Languages: English (Fluent), Mandarin Chinese (Native)

Programming Languages: C++, Python, L^AT_EX
